Quality Lighting Since 1895

To: All Kirlin Sales Agents and Specifiers
From: Chad Eckhout
Date: 12/11/18
Subject: Kirlin Option -39 (Lutron Hi-lume 3-wire Drivers)

Please be advised that Lutron has discontinued sale of all models of Lutron Hi-lume 3-wire dimming drivers, effective immediately. Since Lutron has eliminated production of these drivers, you must revise all specifications and incoming orders that include Lutron Hi-lume 3 wire dimming drivers.

These drivers have been offered by Kirlin as option -39. Thus, option -39 has been eliminated. Kirlin's new option -ECO, will include Lutron Hi-lume EcoSystem Digital Drivers for 2500 lumen and higher models and should be utilized in conjunction with Lutron control systems when deployed on your project.

We will provide relevant updates as they materialize. Consult Lutron with your questions or concerns.
