# Healthcare Lighting Best Practices: Lighting the Modern Hospital

**8 Continuing Education Credits:**

*IESNA (CEU) or AIA CES (LU/HSW)  
or NCQLP (LEU)*

Learn about current trends in Healthcare and how your lighting design for critical spaces can optimize patient outcomes.

Each session is limited in size, facilitating dynamic exchange of ideas for superior lighting design throughout all areas of the global healthcare delivery system. Case studies provide hands on applications of concepts and current IES standards. MRI, ICU/NICU and birthing suite installations provide practical lighting layout examples.

**Topics Include:**

- Trends in Healthcare: Optimizing Patient Outcomes, Infection Control, Tunable White
- Behavioral Health Lighting Requirements
- ICU/NICU/PICU, Cardiac Cath
- Operating Rooms/Hybrid OR
- Labor, Delivery, Recovery & Postpartum
- MRI Lighting: Ensuring Accurate Scans
- Patient Room Lighting and Controls
- Studies on Lighting and Its Effects on Patient Health
- RP-29 Review and Practices (IES)
- Kirlin Factory Tour
