

# MRL-2

## Sample Cases

This sample may be shown as a standard tabletop sample, or may be displayed in the case. To display the fixtures in the case, please see the following steps:

- Take off protective foam
- Pull off felted black foam piece with multiple indents on it
- Pull out components- (From left to right) 0-10V dimmer for **MRL-02SWM**, **PDB-04** Plug-In Distribution Box, **MRI-DMXWP** Wall Controller for **MRL-02CCM**
- Replace felted black foam in same slot it came out of
- Place components on the foam piece - component stand feet fit into divots for easy display
- Plug in power cord
- Scene changes - left and right arrows on either side of LCD screen

### Static White: MRL-02SWM

MRL-02SWM

MRI-CABNT

### Key Product Information

#### Lead Time

- 6 - 8 weeks

#### Output Options

- 779.6 lumens/ft

#### Distributions

- Direct
- Asymmetric

#### CCT

- 3000K
- 3500K
- 4000K

#### CRI

- 90+

#### Lens

- Diffuse Lens

#### Finishes

- **Standard:**
  - White Enamel
- **Options:**
  - Silver Enamel
  - Black Enamel
  - BioGard Anti-Microbial White
  - Custom Color

#### Dimming

- 0-10V to 0.38%

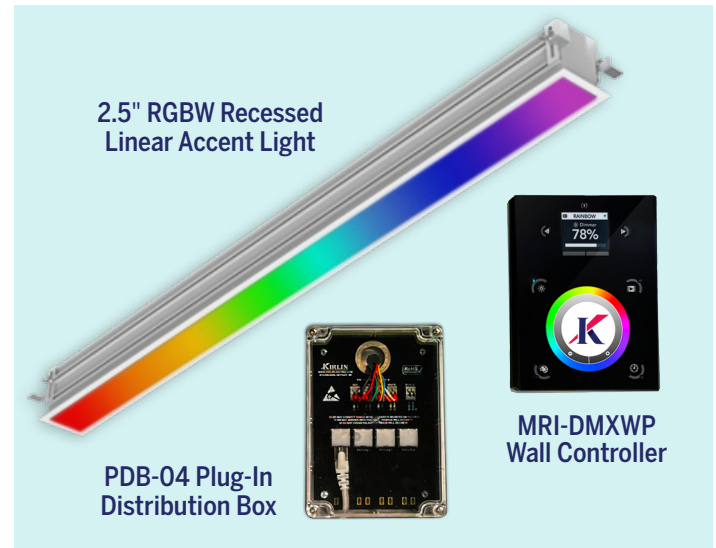

#### Dimensions

- 2-1/2" Lens
- 3-1/2" total width
- 3-3/4" depth
- 2' length increments up to 12 ft standard; longer runs, consult factory

#### Spec Lockers

- Turn-key MRI solution with remote drivers, driver cabinets, RFI filters, and emergency inverters standard

### Dynamic Color: MRL-02CCM

MRL-02CCM

MRI-DMXPS

### Key Product Information

#### Lead Time

- 6 - 8 weeks

#### Output Options

- Red Only: 94.75 lumens/ft
- Green Only: 223 lumens/ft
- Blue Only: 67 lumens/ft
- White Only: 200.6 lumens/ft

#### Distributions

- Direct

#### CCT

- RGB + 4000K

#### Lens

- Diffuse Lens

#### Finishes

- **Standard:**
  - White Enamel
- **Options:**
  - Silver Enamel
  - Black Enamel
  - BioGard Anti-Microbial White
  - Custom Color

#### Dimming

- DMX to 0.3%

#### Dimensions

- 2-1/2" Lens
- 3-1/2" total width
- 3-3/4" depth
- 2' length increments up to 12 ft standard; longer runs, consult factory

#### Spec Lockers

- RGBW (others are RGB)
- Can change color during the scan (others have to be static during the scan)
- Plug and play- no DMX commissioning required
- Turn-key MRI solution with remote drivers, driver cabinets, RFI filters, controller and emergency inverters
