

# INFRALED® PRO

Recessed Motorized Patient Lighting System

## Labor & Delivery Series Overview

2020

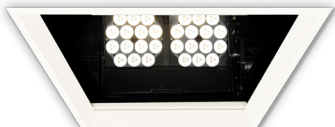

**PROGRESS**  
 Report

SELECTION

## INFRALED® PRO Luminaires for Labor & Delivery:

### PRO 60

63,000 lux on task

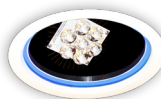

#### Benefits

- 60° aiming illuminates birth canal for early resolution of childbirth challenges
- Recessed lights provide clear space and maximize sterility
- High light levels with dimming ensure visual acuity while maintaining patient comfort

### PRO 25

27,000 lux on task

#### Benefits

- Fully recessed, inconspicuous light and convenient controls
- 360° rotation and 25° tilt provides targeted procedural lighting
- Aimable and dimmable LED lighthead designed to protect newborn's sensitive vision

# INFRALED® PRO

Labor & Delivery

Neonatal ICU

ICU & Patient Room

Cardiac Cath Lab

Hybrid OR

Emergency

## Clinical Benefits

**60°**  
illumination

The industry's highest angle of light delivers illumination 64% further into the birth canal, compared to competing products.

**63,000**  
lux on task

More light on task ensures better outcomes. One pair of INFRALED® PRO 60 luminaires deliver up to 63,000 lux on task.

**95+**  
CRI (extended)

In neonatal environments, accurate color rendering is crucial. INFRALED® PRO's LED light engine boosts reds and blues with a Cyanosis Observation Index of 2.7.

## Operational Benefits

Cool operating temperatures

50,000 hour system life

60-80% energy savings  
(over non-LED sources)

## Instant Aiming with “One Touch” Controls

An easy-to-use remote control and wall panel enable the clinician to change the intensity and independently vary the direction of up to 4 INFRALED® PRO exam lights with one touch, illuminating the patient effectively in any location.

### INFRALED® PRO

Recessed motorized patient lighting system for healthcare applications

#### PRO 60

High-angle exam light with 60° tilt for Child-birth & Surgery

#### PRO 45

19" exam light with 45° tilt for OR, Hybrid OR, & Cath Lab

#### PRO 35/PRO 35V

12" exam light with 35° tilt for ICU, Patient Room, ED, & Behavioral

#### PRO 25

9" exam light with 25° tilt for NICU, ICU, & Patient Room
